

## INDEX TO VOLUME 28

The asterisk (\*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

- Abdomen:** See also Gastrointestinal Tract; etc.  
 carcinoma cells in thoracic and in abdominal fluids, \*283  
 multiple uterine and extragenital tumors produced by estradiol benzoate, 918
- Abbondi, F. B.:** Preparation of purified anti-pneumococcus antibodies, 757
- Abnormalities and Deformities:** See Acromegaly; and under names of organs and regions, as Heart, abnormalities; Pharynx, abnormalities; etc.
- Abscess:** See under names of organs and regions
- Acid, Amino:** See Aminoacids  
 Ascorbic: See Vitamins, C  
 Cevitamic: See Vitamins, C  
 Silicic: See under Pneumoconiosis
- Acromegaly and arterial tension,** 589
- Adamantinoma, rupture of aneurysm into pituitary adamantinoma,** 405
- Adams, C. O.:** Regional fibrocystic disease, 270
- Adams, W. E.:** Obliteration of pleural space following pneumonectomy, 270
- Adenoma, anterior pituitaries of old rats,** 265  
 fetal adenoma of thyroid, 922  
 hyaline adenoma of cervix, 920  
 hyperparathyroidism due to parathyroid adenoma with death from parathormone [parathyroid extract] intoxication, 590  
 uterine, in rabbit, 917
- Adhesions, new formation of elastic tissue in adhesions between serous membranes and in myocardial scars,** \*306
- Adipose Tissue:** See Fat; Lipoma
- Adrenalectomy:** See Adrenals
- Adrenals:** adrenal cortex and hypoglycemia, 763  
 changes in experimental hyperthyroidism, 257  
 effect of sex hormones on renal excretion of electrolytes after adrenalectomy, 91  
 hemorrhage; acute meningococcal inflammation of adrenals (Waterhouse-Friderichsen syndrome), 742  
 hypophysectomy in rat, 256  
 regeneration of adrenal gland following enucleation, 91
- Age, changes produced by estrogen,** 914  
 Old: See Old Age  
 postmortem weight of "normal" human spleen at different ages, 742
- Agglutination, type-specific substance from group A hemolytic streptococci,** 747
- Agglutinins:** See also Antigens and Antibodies; Blood, groups; Immunity; Undulant Fever; etc.  
 development in children with dysentery due to *Shigella paradysenteriae* Flexner, 418  
 flocculation of alcoholic red cell extracts by different types of human heterogenetic hemagglutinins, 99  
 O resistance to VI strains, 748  
 pneumococcus type XIV and human red cells, 596
- Agglutinogens:** See Blood, groups
- Air Passages:** See Respiratory Tract
- Alcohol, organic lesions produced by polyvinyl alcohol in rats and rabbits; toxicopathologic investigation of experimental thesaurosis,** \*510
- Alcoholism:** See also Liver, cirrhosis  
 intoxication and resistance to infection, 261
- Allergy:** See Anaphylaxis and Allergy
- Alvarenga prize,** 400
- Amebiasis, bacterial association in,** 746
- Ameloblastoma, solid to cystic degeneration in,** \*207
- American Pharmaceutical Manufacturers' Association, prize,** 400
- Amerongen prize,** 400
- Aminoacids in plasma protein formation,** 766
- Ammonia and Ammonium Compounds, fat emboli in experimental sodium or ammonium hydroxide poisoning,** 908
- Amyloidosis, elective insular (para-) amyloidosis of pancreas,** 93
- Anaphylaxis and Allergy:** See also Arthus Phenomenon; Asthma; Tuberculosis; etc.  
 conditions in skin of tuberculous guinea pigs as demonstrated with vital dye, 96  
 effects of anaphylaxis and histamine on heart, 912  
 fatal anaphylactic shock in man, 409  
 histologic study of blood cells and blood vessel walls in anaphylactic shock in chick embryo, 740
- Anderson, E. O.:** Dissecting aneurysms simulating syphilitic heart disease with aortic regurgitation, 421
- Andrew, W.:** Origin and significance of binucleate Purkinje cells in man, \*821
- Andrews, A. H.:** Bronchial obstruction produced by cardiovascular anomalies, 271
- Androgens, influence on growth and metastasis of Brown-Pearce epithelioma,** \*777
- Andrus, W. DeW.:** Absorption and utilization of vitamin K; studies in experimental animals and in man, 774
- Anemia, experimental hypoplastic anemia in pigeon and its utilization as basis for biologic assay of specific hemocytopenetic stimuli,** 759  
 histologic investigation into pyloric gland organ in pernicious anemia, 590  
 nephritis and hemoglobin production in, 589  
 nutritional cytopenia in monkey, 461  
 pernicious, gastroscopic observations in, 590
- Anesthesia, intoxication and resistance to infection,** 261
- Aneurysm at base of brain,** 908  
 dissecting aneurysms simulating syphilitic heart disease with aortic regurgitation, 421  
 medial degeneration of aorta as seen in 12 cases of dissecting aneurysm, \*1  
 pulmonary arterial aneurysm in tuberculous cavities, 906  
 rupture into pituitary adamantinoma, 405  
 spontaneous subarachnoid hemorrhage and congenital "berry" aneurysms of circle of Willis, 906  
 traumatic origin in arteries at base of brain, 907
- Angioma, pulsating (generalized telangiectasia) of skin associated with hepatic disease,** 403
- Angiosarcoma, gemmangioma and its relationship to angiosarcoma,** 918
- Anthracoosis:** See Pneumoconiosis
- Antibodies:** See Antigens and Antibodies
- Antigens and Antibodies:** See also Agglutinins; Immunity; Lipoids; Precipitin; and under specific antigens and reactions, as Bacteria, abortus and mellitense group; Pneumococci; etc.  
 antibody purification, 595  
 antibody response to swine influenza, 740  
 distribution of glycolipoidal antigen among *Neisseriae*, 764

- Antigens and Antibodies—Continued**  
 effect of estrogenic and ovariectomy on normal antibody content of serum of mature rabbits, 917  
 photo-oxidation of, 757  
 soluble antigen of myxoma, 266  
 surface films of, 596  
 test of lattice hypothesis with bivalent hapten, 754  
**Antiserum:** See under names of various diseases  
**Antitoxin:** See under Diphtheria; Staphylococci; Tetanus; etc.  
**Aorta, Aneurysm:** See under Aneurysm  
 dissecting aneurysms simulating syphilitic heart disease with aortic regurgitation, 421  
 etiology of hypertension resulting from coarctation of, \*676  
 medial degeneration as seen in 12 cases of dissecting aneurysm, \*1  
 medial degeneration; study of 210 routine autopsy specimens by serial block method, \*377  
**Apparatus, compact dehydrator:** new device for dehydrating and embedding tissues, \*538  
 magnetic electron microscope and its use in biology, 417  
**Appendicitis, experimental proof of obstructive origin in man, 759**  
 purulent peritonitis following appendicitis due to member of typhoid bacillus group, Eberthella oedematiens, de Assis, 122  
**Aqueous Humor, membrane formation at lipid-aqueous interfaces in tissues; correlation of morphologic and chemical aspects, \*177**  
**Arbesman, C. E.:** Effect of specific treatment on serum of patients sensitive to ragweed, 921  
**Arteries:** See also Aneurysm; Aorta; Arteriosclerosis; Blood pressure; Blood vessels; Embolism; Periarthritis; etc.  
 anatomy of pyelonephritic contracted kidneys, 593  
 arterioles of pancreas, liver, gastrointestinal tract and spleen in hypertension, 404  
 coronary; effects of anaphylaxis and histamine on heart, 912  
 coronary; varieties of single coronary artery in man occurring as isolated cardiac anomalies, 92  
 histologic changes following vascular spasm in central nervous system (pitressin episodes), \*697  
**Renal:** See under Kidneys  
 transposition of great cardiac vessels with reference to phylogenetic theory of Spitzer, \*427  
**Arteriosclerosis, 278**  
 coronary artery disease analyzed post mortem, 403  
 vascularization of atherosclerotic lesions, 257  
**Arthritis:** See also Rheumatism  
 chronic, in wild mammals, 907  
 deformans; infarction of bones in calisson disease, 260  
**Arthus Phenomenon, relation of circulating precipitins to, 270**  
**Asbestosis:** See Pneumoconiosis  
**Ashburn, L. L.:** New bone formation in primary carcinoma of prostate gland, \*145  
**Atherosclerosis:** See Arteriosclerosis  
**Atrophy:** See also under names of organs and regions  
 of cremaster muscle, \*141  
**Aujeszky's Disease:** See Pseudorabies  
**Autopsies, question of right of coroner to authorize autopsy without holding inquest, 602**  
**Avitaminosis:** See under Vitamins  
**B C G:** See under Tuberculosis  
**Bacilli:** See Bacteria  
**Bacteria:** See also under Meningococci; Pneumococci; Streptococci; Tubercle Bacilli; Typhoid, bacilli; Viruses; etc.  
 Abortus and Melitense Group: See also Undulant Fever  
 abortus and melitense group; antigenic preparations from Brucella melitensis, 913  
 abortus and melitense group; antigenic surface of smooth Brucella abortus and melitensis, 913  
**Bacteria—Continued**  
 absorption of bacteriophage by blood cells and bacteria, 746  
 Bordet-Gengou's: See Whooping Cough  
 Dysentery: See Dysentery  
 Eberth's: See Bacteria, typhoid group; Typhoid, bacilli  
 Fusiforms: See Spirochetosis  
 Hemophilus: See Whooping Cough  
 Influenza: See Influenza  
 Pertussis: See Whooping Cough  
 Shiga's: See Dysentery  
 structure of "rough" and "smooth" colonies, 263  
 Typhoid Group: See also Typhoid, bacilli  
 typhoid group; purulent peritonitis following appendicitis due to member of typhoid bacillus group, Eberthella oedematiens, de Assis, 122  
 virus and bacterial infection of chick embryo, 686  
**Bacteriophage, absorption by blood cells and bacteria, 746**  
 chemical change during lysis of B. coli, 911  
 microscopic observations on bacteriophage of Bacterium coli, 409  
**Bacterium:** See Bacteria  
 Bailey, F. R.: Primary intramedullary neurofibroma of humerus, \*716  
 Baker, A. B.: Cerebral lesions in hypoglycemia; experimental investigations, \*298  
 Bale, W. F.: Excretion of radioactive iron in dogs, 758  
 Bauer, J. T.: Use of solid carbon dioxide in preparation of gross pathologic specimens, \*396  
 Baumann, C. A.: Production of xanthoma in rabbits, \*163  
 Beard, R. H.: Effects of sulfanilamide, phenothiazine and thionol in experimental trichinosis, 756  
 Beit memorial fellowships for medical research, London, 400  
 Benda, C. E.: Microscopic study of sphenoccipital synchondrosis in mongolism with comparison of this growth disorder with cretinism and chondrodysplasia, 274  
 Bennett, G. A.: Passage of proteins from vascular system into joints and certain other body cavities, 753  
 Passage of type III pneumococci from blood stream into joints and certain other body cavities of rabbits, 766  
 Benzanthrane, effect of 1,2,5,6-dibenzanthracene on growth of yeast, 745  
 transplantable lymphosarcoma in mice, 412  
 Benzpyrene and transplanted carcinoma, 599  
 attempts to propagate fowl tumors produced by benzpyrene and by virus; sites of implantation used; eye of chicken and chorioallantoic membrane of chick embryo, \*212  
 inflammation and carcinogenesis, 414  
 monocytic leukemia and other neoplastic diseases, 161  
 Beres, D.: Effect of thorotrast (colloidal thorium dioxide) on ependymal lining and related parts of brain, \*49  
 Berg, B. N.: Adrenal cortex and hypoglycemia, 763  
 Bernheim, A. I.: Acute postoperative esophageal, gastric and duodenal ulcerations; further study of pathologic changes in shock, \*129  
 Bernstein, M.: Aleukemic plasma cell leukemia with hemorrhagic phenomena, 420  
 Bile Ducts: See also Biliary Tract; Gallbladder  
 effect of repeated transfusions on serum phosphatase of dogs with partial and complete biliary obstruction, 766  
 Biliary Tract: See also Bile Ducts; Gallbladder; Liver  
 so-called biliary cirrhosis, \*37  
 Biopsy: See under Brain; Liver  
 Bittinger, I.: Absorption and utilization of vitamin K; studies in experimental animals and in man, 774  
 Black, J. R.: Vitamin C deficiency and intestinal fusospirochetosis, \*503  
 Blennorrhea: See Conjunctiva

- Blood:** See also Erythrocytes; Hemoglobin and Hemoglobin Compounds; Leukocytes  
absorption of radioactive iron, 758  
cells; absorption of bacteriophage by blood cells and bacteria, 746  
cells; histologic study of blood cells and blood vessel walls in anaphylactic shock in chick embryo, 740  
changes occurring in blood preserved during many weeks and therapeutic effect of such blood, 417  
coagulation; rate of thrombin formation in normal and in hemophilic blood, 767  
coagulation; role of thromboplastin in blood clotting, 767  
Diseases: See also Anemia; Leukemia; etc.  
diseases, institute on, 90  
fats and lipoids; sustained hyperlipemia of dietary origin, 762  
Groups: See also Agglutination; Blood, transfusion; Paternity  
groups; blood subgroups A<sub>1</sub> and A<sub>2</sub>, 416  
groups; heredity of subgroups A<sub>1</sub> and A<sub>2</sub>, 597  
groups; inheritance of agglutinogens A, B, M and N, 97  
groups; properties in sheep, 100  
Parasites: See Malaria  
passage of pneumococci into lymphatics, 96  
phosphatase, cause of elevation in jaundice, 740  
phosphatase; effect of repeated transfusions on serum phosphatase of dogs with partial and complete biliary obstruction, 766  
pressure, high; acromegaly and arterial tension, 589  
pressure, high; arterioles of pancreas, liver, gastrointestinal tract and spleen in hypertension, 404  
pressure, high; etiology of hypertension resulting from coarctation of aorta, \*676  
pressure, high; genesis of renal hypertension, 588  
pressure, high; new method of producing renal insufficiency and hypertension in rabbit, 401  
proteins; aminoacids in plasma protein formation, 766  
proteins; estimation of plasma and serum protein, 106  
proteins; surface films of antibodies and antigens, 596  
role played by trauma in dissemination of tumor fragments by circulation; tumor studied: Brown-Pearce rabbit epithelioma, \*851  
stability of ascorbic acid in, 763  
sugar; adrenal cortex and hypoglycemia, 763  
sugar; cerebral lesions in hypoglycemia; experimental investigations, \*298  
tests; New Jersey provides for blood tests in paternity cases, 738  
transfusion; behavior of hemoglobin after blood transfusion, 95  
Transfusion Betterment Association of New York City; blood donor bureau, 105  
transfusion; blood subgroups A<sub>1</sub> and A<sub>2</sub>, 416  
transfusion; effect of repeated transfusions on serum phosphatase of dogs with partial and complete biliary obstruction, 766  
transfusion in America, 104  
Vessels: See also Arteries; Capillaries; Periarthritis; etc.  
vessels; annual Gross lecture; further studies on pathogenesis of vascular disease, 124  
vessels; histologic changes following vascular spasm in central nervous system (pitressin episodes), \*697  
vessels; histologic study of blood cells and blood vessel walls in anaphylactic shock in chick embryo, 740  
Vitamins: See Vitamins  
Bloom, F.: Classification and pathology of renal disease in dog; comparison with nephritis in man, \*236  
Body build and heart size, 741  
Bollman, J. L.: Sustained hyperlipemia of dietary origin, 762  
Boncoddio, N.: Effect of repeated transfusions on serum phosphatase of dogs with partial and complete biliary obstruction, 766  
Bones: See also under names of bones  
action of estrogen on skeletal tissues of immature guinea pigs, \*340  
changes in experimental hyperthyroidism and in exophthalmic goiter, 92  
Diseases: See Osteitis; etc.  
effect of potassium iodide on bone and cartilage in thyroidectomized immature guinea pigs, \*846  
growth; effect of gonadectomy and administration of anterior pituitary extract on cartilage and bone of immature guinea pigs, 739  
infarction in caisson disease, 260  
malignant giant cell tumor of, 412  
marrow; experimental hypoplastic anemia in pigeon and its utilization as basis for biologic assay of specific hemocytopoietic stimuli, 759  
marrow; transplantation of tooth germ elements to marrow cavities of tibias of kittens, \*199  
microscopic study of spheno-occipital synchondrosis in mongolism with comparison of this growth disorder with cretinism and chondrodysplasia, 274  
new bone formation in primary carcinoma of prostate gland, \*145  
post-traumatic (but not postfractural) rarefaction of long bones, 114  
primary reticulum cell sarcoma of bone, 413  
regeneration, 402  
regional fibrocystic disease, 270  
sarcoma; factors influencing prognosis, 414  
**BOOK REVIEWS:**  
Biology of Bacteria: Introduction to General Microbiology; A. T. Henrici, 425  
Cancer with Special Reference to Cancer of Breast; R. J. Behan, 128  
Clinique et pathologie comparée. Vénérologie—cancérologie—dermatoses, médecine générale—phyto-pathologie; L. Bory, 925  
Epidemic Encephalitis. Etiology, Epidemiology, Treatment, 927  
Etude morphologique et biologique sur les flagellés intestinaux parasites des Muridés. Etude comparative des flagellés du Cobaye; L. Morénas, 127  
Failure of Circulation; T. R. Harrison, 610  
Groupes sanguins. Leur application à la biologie à la médecine et au droit; L. Hirsfeld, 127  
Handbuch der Virusforschung; edited by R. Doerr and C. Hallauer, 925  
Lehrbuch der allgemeinen Pathologie und der pathologischen Anatomie; H. Ribbert, 611  
Maladie d'Aujeszky; P. Remlinger and J. Bailly, 425  
Problems of Ageing: Biological and Medical Aspects; edited by E. V. Cowdry, 280  
Recherche de la paternité par les groupes sanguins. Etude technique et juridique; L. Christiaens, 927  
Report of Medical Research Council for Year 1937-1938; 610  
Sérum normal. Propriétés physiologiques; D. Brocq-Rousseau and G. Roussel, 775  
Symposium on Synapse; H. S. Gasser, J. Erlanger, D. W. Bronk, R. Lorente de Nó and A. Forbes, 926  
William B. Wherry, Bacteriologist; M. Fischer, 281  
Books received, 282, 426, 612, 776, 928  
Boor, A. K.: Distribution of glycolipoidal antigen among Neisseriae, 764  
Bordet-Gengou Bacillus: See Whooping Cough  
Boyd, W. C.: Test of lattice hypothesis with bivalent hapten, 754  
Brain: See also Cerebellum; Meninges; Nervous System; etc.  
and endocrine glands in old age, 743  
Aneurysm: See under Aneurysm  
biopsy studies in cerebral changes in schizophrenia and manic depressive psychosis, 259  
blood supply; hematoencephalic barrier, 405  
cerebral lesions in hypoglycemia; experimental investigations, \*298  
concussion of, 744

**Brain—Continued**

- effect of thorotrast (colloidal thorium dioxide) on ependymal lining and related parts of brain, \*49
- genesis of microglia in human brain, 404
- herniation not heretofore described, 259
- lesions of nervous system in hyperinsulinism, 276
- origin and significance of binucleate Purkinje cells in man, \*821
- spontaneous subarachnoid hemorrhage and congenital "berry" aneurysms of circle of Willis, 906
- Breast, cancer; extra-chromosomal theory of breast cancer in mice, 751**
- cancer; inhibition of tumors by carcinogens, 600
- cancer; tumors in mice, 600
- functional activity of mammary gland of rat in relation to mammary carcinoma, 914
- intracapillary microscopic metastatic mammary gland carcinoma of lungs and other viscera, \*865
- mammary gland in high and low tumor strain, 598
- synergistic effect of heptylaldehyde and methylsalicylate on spontaneous tumors of mammary gland in mice, 917
- Bright's Disease: See Nephritis**
- Brinkhous, K. M.: Rate of thrombin formation in normal and in hemophilic blood, 767**
- Bronchi, bronchial obstruction produced by cardiovascular anomalies, 271**
- cancer; metastatic deposit of bronchial carcinoma in hydrocele misdiagnosed "endothelioma," 104
- Bronchitis, infectious, of chicks, \*556**
- Brochner, R. J.: Etiology of hypertension resulting from coarctation of aorta, \*676**
- Brown, C. R.: Multiple plasmoma of ileum and colon, 112**
- Brucella Abortus; Brucella Melitensis: See Bacteria, abortus and melitense group**
- Brucellosis: See Undulant Fever**
- Brunner's Glands: See Duodenum**
- Buchbinder, L.: Effects of sojourn in experimentally infected mouse on mouse virulence of strain of group B beta hemolytic streptococcus, 756**
- Bunting, C. H.: New formation of elastic tissue in adhesions between serous membranes and in myocardial scars, \*306**
- Bursa, synovial sarcoma in serous bursae and tendon sheaths, 597**
- Byrne, H. J.: Nature of immunity to Trichomonas foetus infection in rabbits, 761**
- Calisson Disease, infarction of bones in, 260**
- Calcification, experimental studies of tissue calcification, 741**
- Calvarium: See Frontal Bone**
- Canary, Kikuth's canary virus, \*559**
- Cancer: See also Epithelioma; Sarcoma; Tumors; etc.; and under names of organs and regions, as Breast; Bronchi; Intestines; Kidneys; Liver; Lungs; Prostate; Stomach; Uterus; etc.**
- benzpyrene and transplanted carcinoma, 599
- cancer-producing tar from tobacco, 918
- carcinogenic and related noncarcinogenic hydrocarbons in tissue culture, 915
- carcinogenic effect of papilloma virus, 267
- cells in thoracic and in abdominal fluids, \*283
- chemoantigens and carcinogenesis, 915
- comparative activity of some carcinogenic hydrocarbons, 751
- comparison of virus-induced tumors with tar tumors, 916
- effect of heat on homologous material from Brown-Pearce tumor, 761
- eosinophilia in malignant tumors, 752
- estrogenic hormones and carcinogenesis, 599
- fellowships for cancer research, 738
- filterable tumors in fowls induced by tar, 918
- growth processes induced by estrogenic hormones, 102
- in frogs; its etiologic relation to virus and its habits of growth in vivo and in vitro, 109
- in rats treated with estrone, 264

**Cancer—Continued**

- increased susceptibility to Brown-Pearce carcinoma, 101
- influence of androgens on growth and metastasis of Brown-Pearce epithelioma, \*777
- inhibition of tumors by carcinogens, 600
- metastases; carcinoma of kidney in leopard frog, 101
- metastases; intracapillary microscopic metastatic mammary gland carcinoma of lungs and other viscera, \*865
- mode of inception and lateral spread of certain squamous cell carcinomas, 104
- resorption of injected tumor cells of Brown-Pearce carcinoma of rabbits in immunized animals, 919
- role played by trauma in dissemination of tumor fragments by circulation; tumor studied: Brown-Pearce rabbit epithelioma, \*851
- urine extractives in, 750
- Cannon, P. R.: Relation of circulating precliptins to Arthus phenomenon, 270**
- Capillaries: See also Blood vessels**
- dyes and foreign proteins in normal and malignant tissues, 914
- intracapillary microscopic metastatic mammary gland carcinoma of lungs and other viscera, \*865
- passage of proteins from vascular system into joints and certain other body cavities, 755
- Carbohydrates: See also Dextrose; Glycogen; etc.**
- antibody purification, 595
- cellular reactions to defatted tubercle bacilli, 97
- polysaccharides from tubercle bacilli, 410
- surface films of antibodies and antigens, 596
- tuberculin protein and polysaccharide molecules, 98
- Carbon Dioxide, use of solid carbon dioxide ("dry ice") in preparation of gross pathologic specimens, \*396**
- Carcinoid: See Stomach**
- Carcinoma: See Cancer**
- Cardiovascular Diseases: See also Blood vessels; Heart**
- bronchial obstruction produced by cardiovascular anomalies, 271
- Cardiovascular System: See Arteries; Blood vessels; Heart; etc.**
- Cartilage, action of estrogen on skeletal tissues of immature guinea pigs, \*340**
- causal significance to traumatic ossification of fibrocartilage in tendon insertions, 274
- effect of gonadectomy and administration of anterior pituitary extract on cartilage and bone of immature guinea pigs, 739
- effect of potassium iodide on bone and cartilage in thyroidectomized immature guinea pigs, \*846
- experimental studies of tissue calcification, 741
- Casey, A. E.: Effect of heat on homologous material from Brown-Pearce tumor, 761**
- Cecum, chronic cecal disease of laboratory rats, 758**
- Cells: See also Blood, cells; Cancer, cells; Neuroglia; Phagocytes and Phagocytosis; Tissue; etc.**
- case of measles in which giant cells were observed in respiratory tract, 747
- cytology and histology of thyroid in animals, \*870
- detection of glutathione in mitochondria and nucleus, 417
- disseminated giant cell reaction; possibly prodromal measles, 272
- inclusions; cytoplasmic inclusions in engorging tick, 97
- inclusions; virus disease of cats, 909
- multinucleate epithelial giant cells with inclusion bodies in prodromal measles; report of autopsy, \*386
- vitamin A and tumor mitochondria, 266
- Cerebellum, medulloblast and medulloblastoma, 404**
- Cerebrospinal Fluid, effect of sulfapyridine on viability of meningococci in spinal fluid, 920**

- Cervix: See under Uterus  
 Chemotaxis: See Leukocytes  
 Chemotropism: See Leukocytes  
 Chest: See Thorax  
 Chickenpox; varicella, \*570  
 Chloroma, porphyrins in biology and pathology, 744  
 Cholangioma in hepatolithiasis, 605  
 Cholecystitis: See Gallbladder  
 Cholera, hog cholera, \*556  
 Cholesterol: See also Lipoids  
   determination of cholesterol and cholesterol esters in tissues by Schoenheimer-Sperry method, 744  
   production of xanthoma in rabbits, \*163  
 Chondrodysplasia, microscopic study of spheno-occipital synchondrosis in mongolism with comparison of this growth disorder with cretinism and chondrodysplasia, 274  
 Chondromyxosarcoma, case of, 924  
 Chorionangioma of placenta, 418  
 Chorionmeningitis: See Meningitis  
 Choroid Plexus, papillary tumor in newborn infant, \*390  
 Circle of Willis: See under Brain  
 Coccioides, studies in metabolism of Coccioides immitis (Stiles), 262  
 Cod Liver Oil, studies in lipid pneumonia; lipid pneumonia due to cod liver oil; lipid pneumonia due to liquid petrolatum, \*613  
 Cogswell, T. G.: Traumatic epithelial cysts, 275  
 Colchicine, action on transplanted malignant neoplasm, 264  
 Cold: See also Temperature  
   studies on sex ratio; (a) metabolic gradient as conditioning factor; (b) sex ratio and resistance, 272  
 Colds: See Respiratory Tract, diseases  
 Collitis, ulcerative, etiology of, 745  
 Colmers, R. A.: Acquired parasternal diaphragmatic hernia on right, 118  
 Colon: See also Gastrointestinal Tract; Intestines  
   multiple plasmoma of ileum and colon, 112  
 Coman, D. R.: Studies on chemotaxis; nature of substances attracting or repelling slime mold, 759  
 Communicable Diseases: See Measles; Meningitis; Syphilis; etc.  
 Concussion: See under Brain  
 Conjunctiva, inclusion blennorrhoea, \*556  
 Cor Biloculare: See Heart, abnormalities  
 Cornea, corneal vascularization in riboflavin lack, 402  
 Cornell, V. H.: Undifferentiated small cell carcinoma of small intestine, 923  
 Coronary Arteries: See Arteries, coronary  
 Coroner, medical examiner for Maryland, 255  
 Coryza: See Respiratory Tract, diseases  
 Cranioopharyngioma, suprasellar tumor in dog, 267  
 Cranium: See also Frontal Bone; Occipital Bone  
   hemispheric, 592  
   injuries; traumatic origin of aneurysms in arteries at base of brain, 907  
 Cretinism, microscopic study of spheno-occipital synchondrosis in mongolism with comparison of this growth disorder with cretinism and chondrodysplasia, 274  
   thyroid gland of cretin at birth, 261  
 Cysteine, Therapy: See under Tumors  
 Cysts: See also under names of organs and regions, as Lungs; etc.

Thyroidectomy: See under Thyroid

Tibia, transplantation of tooth germ elements to marrow cavities of tibias of kittens, \*199

Ticks, cytoplasmic inclusions in engorging tick, 97

Tissue: See also Cells

- affinities of vaccine virus, 98
- changes in prostate caused by high frequency current, \*371
- compact dehydrator: new device for dehydrating and embedding tissues, \*538
- connective; new formation of elastic tissue in adhesions between serous membranes and in myocardial scars, \*396
- connective; perineurial cysts of spinal nerve roots, 404
- connective; perineurial fibroblastoma rather than schwannoma; "direct staining" evidence against Schwann cell origin, 771
- connective; silver impregnation method for reticulum, 106
- culture, carcinogenic and related noncarcinogenic hydrocarbons in, 915
- culture; growth of fowl coryza bodies in tissue culture and in blood agar, 909
- culture; neutralization of active agent of filterable fowl tumors, 750
- determination of cholesterol and cholesterol esters in tissues by Schoenheimer-Sperry method, 744
- membrane formation at lipid-aqueous interfaces in tissues; correlation of morphologic and chemical aspects, \*177
- mode of action of methylcholanthrene, 265
- study of rickettsiae grown on agar tissue cultures, 745

Tobacco, cancer-producing tar from tobacco, 918

Tolstol, G.: Granulosa cell tumors of ovary, 923

Tomatoes, tomato Bushy stunt virus, 97

Tonsils, tuberculosis; its incidence and origin, 745

Trachea, sarcoma of, 117

Trachoma, \*569

matrix of inclusion body of, 594

virus of, 409

Trasoff, A.: Mural endocarditis following pulmonary suppuration, 423

Trauma, post-traumatic (but not postfractural) rarefaction of long bones, 114

role played in dissemination of tumor fragments by circulation; tumor studied: Brown-Pearce rabbit epithelioma, \*851

traumatic epithelial cysts, 275

Trichinella: See Trichinosis

Trichinosis, experimental, effect of sulfanilamide, phenothiazine and thionol in, 756

in Cleveland; postmortem examination of diaphragms and skeletal muscles from 100 consecutive autopsies, 408

present incidence of Trichinella spiralis in man as determined by study of 1,060 unselected autopsies in St. Louis hospitals, 261

Trichinella spiralis; incidence of infection in man, dogs and cats in New Orleans area as determined in postmortem examinations, \*11

Trichomoniasis, nature of immunity to Trichomonas foetus infection in rabbits, 761

Trichostrongylidae, cellular reactions in skin, lungs and intestine after infection with Nippostrongylus muris, 749

Trypanosomiasis, effect of splenectomy and blockade on protective titer of antiserum against Trypanosoma equiperdum, 596

Trypsin injection into renal arteries, 401

Tubercle Bacilli: See also Sputum

cellular reactions to defatted tubercle bacilli, 97

cellular reactions to tuberculo-proteins, 96

experimental tuberculous meningitis, 741

incidence and significance of healed miliary tubercles in liver, spleen and kidneys, \*331

polysaccharides from tubercle bacilli, 410

reactions to tuberculo-proteins and tuberculo-phosphatide, 410

tuberculous allergy without infection, 595

virulence of human tubercle bacilli for rabbit, 746

Tuberculin: See under Tuberculosis

Tuberculo-protein: See under Tuberculosis

Tuberculosis: See also Tubercle Bacilli; and

under names of various diseases, organs

and regions, as Meningitis; Spleen; Tonsils; etc.

allergy and immunity from dead tubercle bacilli in vegetable oil, 913

allergy without infection, 595

cellular reactions to tuberculo-proteins, 96

conditions in skin of tuberculous guinea pigs as demonstrated with vital dye, 96

congenital, aspiration type of, \*799

experimental, allergy and immunity in, 913

incidence and significance of healed miliary tubercles in liver, spleen and kidneys, \*331

infectivity of primary complex of, 594

mechanism of immunity in, 912

metastatic lesions from tubercle bacilli in paraffin, 911

prevention of hypersensitivity in, 409

pulmonary, accepted and disputed concepts in pathology of, \*719

pulmonary arterial aneurysm in tuberculous cavities, 906

pulmonary; epituberculosis, 260

pulmonary, sclerotic and so-called interstitial forms of, 743

reactions to tuberculo-proteins and tuberculo-phosphatide, 410

tuberculin protein and polysaccharide molecules, 98

Tumors: See also Adenoma; Ameloblastoma;

Angioma; Cancer; Epithelioma; Fibroma;

Glioma; Meningioma; Myxoma; Papilloma;

Sarcoma; etc.; and under names of organs

and regions, as Bones; Heart; Lungs;

Ovary; Testicles; etc.

action of colchicine on transplanted malignant neoplasm, 264

Amyloid: See Amyloidosis

antigenic basic of tumor transplantation, 414

comparison of virus-induced tumors with tar tumors, 916
